

My school

My school is in a little town called Dobřichovice. Its a secondary school and it is a huge building. Its called Základní škola Dobřichovice.

My timetable

My favourite day is wednesday because we have ICT and Music and more. My least favourite day is Monday because it is the day we go back to school again. In online class my favorite day is actually Monday because we have the least amount of time we learn throughout the week. My least favourite online is Friday because we have the most learning time of the whole week and we have no breaks in between. My favorite subject is ICT because we use computers and I really enjoy it.

Breaks

We have 10 minute break after every subject. Then we also have one 25 minute break. In the break time we usally chat, play football, or do something funny like pranks. And in the 25 minute break we go outside to play vybijena.

Lunch

To get the lunch we need to use special chip that we scan on a scanner in order to pay for the food. Unlike England we can have school food or go home and eat something there. Most of the times the food is good but sometimes there is food I don't like.

School uniform

In Czechia we don't have uniforms we are allowed to wear normal clothes. But in England we had cool uniforms so we didn't argue who has better or worse clothes.

Time

We start at 8:05 and finish at 11:45 or 12:45. In online school we start at 8:00 and sometimes at 9:00 and finish at 11:00 or 12:00.

Teachers

My class teacher is called Julie Filípková. She is a very kind teacher and we sometimes do some fun activities. **She is married.**

Our class assistant is called Krystýna Stočesová. She helps me and the class a lot and her and my teacher make good jokes. She is married too.

The name of my teacher for English class is Lucie Wladařová. We have a lot of fun during our English class. Shes married and her son is my classmate.

Students

There are 26 students in our class. Most of them are from Dobřichovice. And most of them are my friends. And all of the students are really kind.
